SOCIETY

A smart affair of interest to society here was a dinner Wednesday evening at the Baltimore Country Club by a group of officers of the Thirty-third Field Artillery, now stationed at Camp Meade, Md., in honor of Miss Dedictional, daughter of Colonel Dedlemond. The party included Miss Abbic Roberts, Miss Swan Deford, Miss Louise Tinsley, Miss Mary Washington Stewart, Captain Tully, Lieutenant Baltey, Lieutenant Berkeley, Licutenant Berkeley, Licutenant Berkeley, Licutenant Berkeley, Licutenant Berkeley, Licutenant Berkeley, Dictionant Barty, Miss Tinsley and Miss Tinsley, both of whom are widely related in Richmond, are to make their formal bow to society in Baltimore this season.

Colonel and Mrs. Frank P. McConnell have moved into their new home, 2215 housement Avenue, and have as their guest for this week Mrs. McConnell's Lather, former Governor J. Hoge Tyler. Mr. and Mrs. J. E. Detreville and their family, of Richmond, who spent the summer at the Burbank cottage, Virginia Beach, have leased the Christian cottage for the winter.

On account of the prevailing epidemic the regular quarterly meeting of the Federation of Baptist Home Department Workers has been postponed until further notice. Superintendents are requested to hold their reports in readiness.

trict Weather Bureau, declares the allies can keep driving on toward Berlin until November 1. The United States front he says, will be the last in France closed by winter.

"Generally speaking, operations on the western front from the North Sea to Switzerland may continue to about November 1." said Professor Cox, "Our only basis for weather forecasts for that district are the average weather tables, which shows the north will be the mildest, although there the heavy flal and winter rains take the place of the colder weather farther south. From Belgium to St. Quentin the weather will be milder, but it will be rainy, and these rains will begin shout October 30. From St. Quentin to Rheims it will be colder, with less rain, and from Rheims to Verdun is the district that will be sen the longest. From Verdun to Switzerland in the Vosges district, there is heavy snow about the first week in December, with cold coming on about November 1."

Apple Marmalade

Cook the apples till tender, using very little water. In preparing the apples cut into small pieces of uniform size, so as to expedite the cooking, and do not mix varieties till after they are cooked. By following this plan the fruit will cook in uniform time, with no danger of some burning before the other is cooked. Chinamon is the best spice to use with apples. To each cup of cooked fruit use half cup boiled sirup (sorghum or other sirup). Mix fruit and sirup well. Cook till clear, stirring constantly, as a mixture containing sirup burns more quickly than one containing sugar. As soon as the mixture is clear it may be put into hot sterilized jars and scaled, or it may be cooked till thick and jelly-like. In the latter case it may be kept in glasses just as jelly is kept. If the combination of fruit and sirup is highly flavored with a combination of spices, the mixture need not be cooked till as thick as for marmalade, and will make a fruit butter much better liked by some than the stiffer marmalade.

CURE FOR BLUES NEAR THE CAMPS

NEW YORK, October 21 .- Ten young

a servant, but, as one young officer expressed it. "the sort of woman to whom the boys can call out "Hello, mother!" when they come in the front door."

Homestekness is the malady for which war camp community service supplies innumerable cures.

"We've got your number." says the W. C. C. S. to the homesick boy from camp with leisure to spend in any one of the 300 towns scattered over the country. While he's wondering what on earth he'll do with himself when he gets there, not know a soul in town and with a limited percentage of his "thirty per" in his pocket, along comes a friendly printed card from the local branch of his own lodge announcing a reception that night especially for soldier members. By the same mail the Methodist Church sends an announcement of all its meetings addressed to him, with this means you printed at the bottom. How did they know he was a Methodist."

He had forgotten about the little. "Personal Card" he made out at the adjutant's request during his first day in camp when it was only one of the endless details in the round of dentists and doctors and general confusion. The W. C. C. S. had not only his number, but his mame and address, his home to and a good bit about the things he was fondest of doing—each fact written into a little blank on the card especially for it.

PRISONERS REFUSE TO WORK WITH MEN RATED SLACKERS

lared Themselves Objectors Laboring With Men Who Are Atraid to Fight.

Afraid to Fight.

LONDON, October 24.—The commandant of a prisoners' camp in the west of England has reported that a few days ago a party of Germans went on strike on ascertaining that a number of conscientious objectors were to be employed on the same job. They gave as their reason for refusing to work a "conscientious objection" to associating with men who were too cowardly to fight for their country.

It is understood that they persisted in their refusal to work in such company, and the matter was at once reported to the military authorities at headquarters.

Switzerland Rations Milk.

BERNE. October 23.—One scarcely can conceive of milk being rationed in Switzerland, yet, owing to the shortage, a regulation will be put into effect November 1. The ration will be fixed from month to month. Meat will be rationed from January 1 and will be 150 grammes (5 1-4 ounces) a head. The government will assume the monopoly of cattle and stop all private slaughtering.

To keep your factory working force complete it is advisable that you run a Help Wanted Ad every day. Ask about the reduced rates for consecutive insertions. Phone Randolph 1.

T. 10-25-18.

The poisons in man are taken care of, if man will do his part. The liver and kidneys act as the sewage disposal plants which separate and throw off the poisonous accumulations, if given half a chance. But many of us should not eat meat more than once a day. Eat vegetables, and what may be called "roughage," to stimulate bowel action, such as baked potato with the hard skin, Graham, rye or whole wheat bread, onions, turnips, carrots, even the much slandered cabbage, and sauerkraut. Stimulate the liver into a thorough housecleaning at least once a week, by taking a purely vegetable laxative, made up and extracted from May-apple,

a Pleasant Pellet, first made by Doctor Pierce nearly fifty years ago and sold for twenty-five cents by almost every druggist. To keep the kidneys clean, drink plenty water between meals; also, if you wish to "escape half the ills" which cause early deaths from kidney disease, affections of the heart, rheumatism and gout, drink a pint of hot water a half hour before meals. This with regular outdoor exercise, sensible food, and occasionally Anuric (double or triple strength) after meals for a few weeks at a time, and there is no reason why a man or woman should not live to be a hundred. This Anuric stimulates the kidneys, causing them to throw out the poisonous uric scid which causes us to have pains in

Anuric always benefits and often cures the cause of kidney disease, as well as rheumatism and gout. Sold by druggists, or send 60 cents to Dr. V. M. Pierce, Pres. Invalids' Hotel Buffalo, N.Y., or 10 cents for trial package.
